"My favorite part of spring is the colors I see come to life! After a colorless winter, I love seeing vibrant greens and the soft pinks of flowering trees transitioning from bare branches. It's a refresh and a time to feel inspired."

Pool & Rear Porch

With drama and a mastery of storytelling, Lillian August lifestyle designs are coveted for their range of expression—from glamorous to clean designs in her premiere furniture collection. August's trademark look blends periods and styles to reflect her signature point of view. August's mission is always tempered to the creation of compelling and livable rooms, which answer to today's fashion and lifestyles.

For August, the most compelling and artistic rooms tell a story and color always plays a key role. "I thrive on creating an unusual and unique slant for timely fashion statements which can bring the past to the present. A collected over time feeling with eclectic statements." August introduces fresh color palettes of the spring season which brings joy, comfort and excitement into the home furnishings introductions.

Lillian August now presents a new creative vision for a masterful mix of casegoods and upholstery in their outdoor furniture collection. "Branching into the outdoor furniture category for us falls in line with the Lillian August brand mission to become a one-stop shop for our customer," says Dan Weiss, CEO of Lillian August and August's son, who has been the driving force behind the collection.
